APPLICATION FORM

8. DESCRIPTION OF EXPERIENCE

In accordance with the Ozone Protection and Synthetic Greenhouse Gas Management Act 1989 and its regulations, a person applying for an EAHL – Experienced Persons (Entitlement 6) must show that they are suitably experienced.

Information must show the Fire Protection Industry (ODS & SGG) Board that the applicant is highly experienced in carrying out the type of work permitted by the licence.

A statement that a person is working for a company involved in the fire protection industry is not sufficient. Applicants must detail the actual work they do and have done. It is unlikely to be regarded as sufficient experience to hold an EAHL – Experienced Persons (Entitlement 6) if you have less than two years of direct relevant experience.

Supporting information describing all relevant experience must be included on this form.

The applicant must provide at least the following information:

- the types of systems and extinguishing agents worked on,
- the length of time the applicant has worked with each extinguishing agent and fire system,
- the role(s) the applicant has had and a clear description of what work they actually did, and
- details of any relevant competency assessments (including in-house training).

Insufficient information will likely lead to a delay in assessing an application and may lead to its rejection.

EAHL EXPERIENCE PERSONS (ENTITLEMENT 6) – CONTROL SYSTEMS INSTALLATION, COMMISSIONING AND DECOMMISSIONING

ENTITLEMENT OF LICENSEE To install, commission and decommission a fire detection and alarm system, including any remote operation panel and actuation and control system that interfaces with or forms part of a gaseous fire extinguishing system.

DIRECTLY RELEVANT EXPERIENCE Include information on the type of control systems you have installed, commissioned and decommissioned and describe your role in undertaking this work.
