

# FPIB Alternative Technology Recognition Program – Nomination Form

The Fire Protection Industry (ODS & SGG) Board (FPIB) has created a program to recognise businesses that have transitioned away from scheduled extinguishing substances (ozone depleting substances and synthetic greenhouse gases) in favour of cleaner alternatives. The program extends to decommissioning a system that used a scheduled substance.

By nominating a business, you will help the FPIB champion that business as a leader in making environmentally sound choices. You can nominate your own business, or alternatively if you are a technician, you may wish to nominate a business you have completed work for as a contractor (providing they give you consent).

If a nominee fits the criteria, they will be presented with a certificate of recognition and may be written up in the FPIB’s quarterly industry newsletter, GasBag. This program is a fantastic opportunity to promote industry leaders.

For any questions related to the program, please email us at [ozone@fpib.com.au](mailto:ozone@fpib.com.au) or phone us on 03 8892 3161.
